NEW FOR PRIMARY

New from Collins New Primary Maths

Investigations

With one photocopiable pack per year, **Collins New Primary Maths: Investigations** will help children to use and apply maths to relevant, cross-curricular contexts with lots of activities that practise problem-solving.

Speaking & Listening

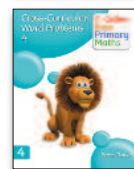

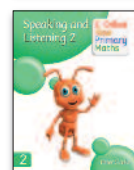

With one photocopiable pack per year, **Collins New Primary Maths: Speaking & Listening** will help children to focus on tasks by listening and responding during the starter and plenary stages of the lesson.

Cross-curricular Word Problems

With one photocopiable pack per year, **Collins New Primary Maths: Cross-curricular Word Problems** will help children practise problem-solving in scientific, historical and geographic contexts.

Each photocopiable pack fully supports the APP agenda by focusing on specific mathematical skills, such as AT1 – Using and Applying Maths and comes with a CD-ROM containing adaptable Word-files.

ALSO AVAILABLE

Collins New Primary Maths Year 6+

Collins New Primary Maths Year 6+ will help stretch high achieving pupils with comprehensive extension work at National Curriculum level 5 and beyond, covering the Framework progression objectives from Year 6 to Year 7. It follows the same structure as **Collins New Primary Maths**, with a Pupil Book, Teacher Guide and Software, 124 lessons in total, and is ideal to be used *either* alongside **Collins New Primary Maths Year 6** or as a separate teaching tool.

Pupil Book 6+	• 9780007220557	• April 2009	• £7.99
Teacher's Guide 6+	• 9780007220540	• April 2009	• £69.99
Software 6+	• 9780007221301	• April 2009	• £150.00

New Maths Frameworking

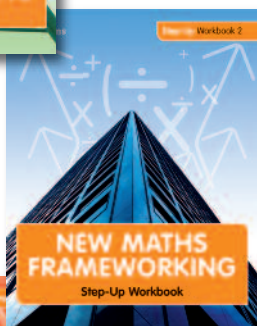

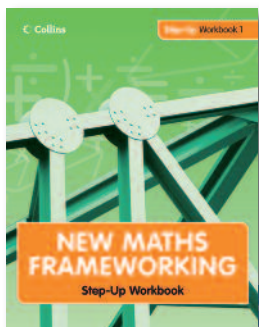

Step-Up Workbooks

Occupy very low level pupils struggling with KS3 Maths with Collins' brand new **Step Up to New Maths Frameworking Workbooks**. Packed with write-in practice and the appropriate use of language at levels 1, 2 and some low level 3 it gives pupils confidence and a thorough foundation in the Maths they need.

Functional Skills Activity Book and Teacher Guide

Teach the Functional and Process Skills that are integral to the KS3 Framework and the new GCSE with these exciting and engaging real-life scenarios involving mathematics. Students will become independent and confident in applying the maths they already know to a range of familiar and unfamiliar problems that prepare them for work and life.

 Functional Skills Teacher Guide • 9780007318438 • June 2009 • £74.99
 Functional Skills Teacher Guide Network Licence • 9780007318421 • June 2009 • £105.00

KS3 Science Homework Books

The Homework Books provide exciting and varied activities for all levels in order to ensure good progress and success for every student at Key Stage 3. Each book includes a free CD ROM of the Pupil Book for students to use at home, levelled activities and a "record your progress" card.

KS3 Science Assessment CD-ROMs

The Networkable Assessment CD-ROMs offer comprehensive formative and summative assessment for students as they work through the new KS3 Science course with detailed mark schemes. Teachers can personalise assessment for individual students with easy-to-customise tests in Word, print off tests for students so they can practise under timed conditions, record and track progress with Data analysis sheets.

KS3 Science Video Resource Packs

The Video Resource Packs offer a wealth of extra resources to reinforce and extend learning. The CD ROMs contain an exciting video for every spread in the Pupil Book, a resources sheet containing individual, pair and whole-class activities and teacher notes for every video to help with planning.

KS3 Science Teacher Packs: APP Edition

Updated to show opportunities for Assessing Pupils Progress (APP) throughout, the new editions of the Teacher Pack include pick-up-and-teach notes including starters and plenaries for every spread of the Pupil Book, integrated differentiated worksheets, links to How Science Works and a CD-ROM with customisable Word files, together with APP support materials and CPD presentations.

ALSO COMING SOON

Virtual Experiments for KS3

24 user-friendly, interactive experiments for the KS3 Science Framework that will help teachers demonstrate tricky scientific concepts *e.g. motors and generators*, minimise the time and mess involved in experiments *e.g. volcanism*, easily repeat and vary conditions of an experiment that might go wrong in class *e.g. measuring speed*. The CD-ROM includes print out worksheets, results tables and teacher notes for each virtual experiment.
