

As you complete the practice questions in *Easy Learning KS3 Maths Workbook Levels 3–6*, you can use the mark-level converters below to check which National Curriculum level you are currently working at. You can use this information to help you see which areas you are confident in and which ones you need to revisit. You can use *Easy Learning KS3 Maths Revision Levels 3–6* to revise any topics you need to spend more time on.

## Levels per total marks for each Attainment Target

To find your level for each Attainment Target, add together your marks from each section, e.g. Number, to give a total mark.

Attainment Target	Marks for level 3	Marks for level 4	Marks for level 5	Marks for level 6
Number	25	90	160	200
Algebra	5	20	50	120
Shape, Space and Measures	20	60	110	160
Handling Data	5	10	45	120

## Levels per total marks for the practice papers and mental test

To find your level for the Test section of the workbook, add together your marks for Practice Paper 1, Practice Paper 2 and the Mental Mathematics Test to give a total mark.

	Marks for level 3	Marks for level 4	Marks for level 5	Marks for level 6
Test section	20–49	50–79	80–109	Over 110
